“Let us be alert to the season in which we are living. It is the season of the Blessed Hope, calling for us to cut our ties with the world and build ourselves on this One who will soon appear. He is our hope—a Blessed Hope enabling us to rise above our times and fix our gaze upon Him.” Tozer

Why Do So Many Christians Deny The Deadly Intent Behind The Globalists' Agenda?

Evil people have always conspired against the righteous. We see this in the words of David in Psalm 37:12, written three thousand years ago:

Psalm 37:12 KJV – *“The wicked plotteth against the just, And gnasheth upon him with his teeth.”*

Why, then, do the majority of people doubt that this happens today? Why do so many believers deny that there's a deadly intent in the agenda of the globalists?

One possible answer to the above questions is that many regard the warnings they hear as “conspiracy theories.” This has become a popular yet convenient way for people to disregard the threats to their wellbeing and continue with life as though they don't really exist.

However, what if the items that most people regard as conspiracy theories are actually spoiler alerts for what lies ahead? What if they are like a lighthouse illuminating the clear and present dangers of our day?

Long, long ago, IBM aired commercials under the banner of “You Make the Call.” Viewers watched short video clips of plays from NFL football games after which an announcer asked what call they would make if they were the referee. Was it a penalty? Was it a fumble? Did the receiver catch the ball inbounds? Was it a touchdown?

As you go through the list below, I invite you to also “make the call.” Do these things result from the perspective of a conspiracy nut given to baseless doomsday scenarios?

Or are they valid portrayals of events that signal the nearness of the seven-year Tribulation?

1. CATASTROPHIC WORLDWIDE FOOD SHORTAGES DURING 2023

I often read warnings of catastrophic food shortages for 2023. Back in June of this year I wrote, *Is America on the Cusp of a Food Catastrophe?* In it, I provided much supporting evidence for this from a wide variety of sources.

Since I wrote that article, both the World Health Organization and the UN have come out with warnings of their own concerning dire food shortages for 2023.

This coming time of worldwide famine aligns closely with Bible prophecy for the time of the Tribulation (Matthew 24:7; Revelation 6:6). These forecasts of drastic shortages of food are what the Bible says we should expect in the last days leading up to the Day of the Lord.

Do you agree that there’s much evidence supporting this?

2. DIESEL FUEL SHORTAGES

There’s considerable talk about impending diesel fuel shortages in the U.S. Is this also just a conspiracy theory? I don’t think so.

A recent *Reuters’* news story out of London, *Column: U.S. Diesel shortage increasingly likely until economy slows*, says that yes, diesel fuel shortages pose a real threat to the American economy. The story states that the *only* remedy for this crisis is a dramatic slowing of the economy, such as a deep recession or depression, so that the demand for the fuel lessens.

A November 5, 2022, *Newsweek* article also warned of the critical diesel fuel shortage in America. The title itself, *Diesel Shortage Will Hit These Seven States the Hardest*, reveals that these warnings are not just the doomsday scenarios of those with tinfoil hats, but rather point to a legitimate and looming crisis.

If these shortages continue or get worse, they will drive up the prices of everything in the short term and lead to panic buying.

I have read scenarios of the chaos and violence that would erupt in the U.S. if we completely run out of diesel fuel and they sound remarkably similar to what John describes in Revelation 6:5-8.

Even if we don’t run completely out of diesel fuel, isn’t it likely that the shortages will cause much suffering as prices skyrocket for basic necessities?

3. RECORD INFLATION THAT WILL GET MUCH WORSE

Inflation in the U.S. and in many European countries is already at levels not seen for almost five decades and many predict this will become far worse in the months ahead. The scarcity of natural gas in Europe will not only kill a great many people, but also accelerate rising prices for everyday necessities.

The quote below comes from a recent *Market Watch* article, Hedge-fund giant Elliott warns looming hyperinflation could lead to 'global societal collapse. As the title suggests, it assumes that "hyperinflation" lies in our future.

“. . . executives at leading hedge-fund firm Elliott Management Corp. warn that the world is heading toward the worst financial crisis since World War II.”

Is this not exactly what Revelation 6:5-6 says about skyrocketing inflation early in the Tribulation? We already see numerous indicators of spiraling price increases throughout the world, which is precisely what we would expect to see during the days leading up the time that John describes in Revelation 6-18.

What call do you make on this?

4. THREATS OF WORLD WAR III

The leaders of NATO and Vladimir Putin talk about the use of nuclear weapons as though it's something normal and to be expected. Some world leaders say that World War III has already started; others say it's ever so close.

Another warning of war comes from Chinese President Xi Jinping. He recently stated that China is "preparing for war." Since no nation seems ready to declare war against this nation anytime soon, it begs this question: *Who is China preparing to attack and when?*

At any moment, the war in Ukraine might explode into a much a larger conflict; we hear numerous threats of this.

North Korea has stepped up both its weapon testing and threats against America.

I cannot predict what will happen between now and the Rapture, but I believe what we see is stage-setting for the deadly wars that will happen after the Lord takes us home to glory.

The Bible tells us that great wars will happen in during the Tribulation. The second rider of the apocalypse is that of war (Revelation 6:3-4, 8) and the wars that he spawns will contribute to the deaths of an exceptionally number of people, a total that fits with the use of nuclear weapons.

Do you see great wars in the near future?

5. THE DEPOPULATION AGENDA OF THE GLOBALISTS

This is perhaps the place where we see the greatest denial. If people, even believers, do not openly say that talk of a depopulation agenda is nothing but a wild conspiracy theory, they communicate it in other ways.

But is this real or just the ramblings of doomsday purveyors? No, it's not.

The elite globalists of our day are not silent regarding their intent to drastically reduce the earth's population. Yuval Noah Harari, perhaps the most influential of them all, frequently describes most people as "useless eaters." Harari is currently on tour promoting his latest book and saying things such as "we just don't need the vast majority of you." His desire to reduce the earth's population is clear.

Harari is the righthand man of Klaus Schwab and thereby has immense influence over the leaders of the world. His books sell by the millions and he's the favorite author of many world leaders, including Barak Obama.

I document the evidence of the deadly agenda of the elite powerbrokers of our day in my recent post, *Depopulation: The Sign that Tells Us Jesus' Appearing is at Hand*.

In Psalm 37:14-15, David further exposes the deadly agenda, or conspiracies, of all those who promote evil.

Psalm 37:14-15 KJV – *"The wicked have drawn out the sword, and have bent their bow, To cast down the poor and needy, and to slay such as be of upright conversation. Their sword shall enter into their own heart, And their bows shall be broken."*

Along with the Psalmist's portrayal of how evil people conspire against the wicked, please also remember what Jesus declared about Satan in John 8:44 and 10:10. *He is a murderer and a liar.*

I believe the globalists are merely minions carrying out the devil's plan to bring about the reign of his man, the antichrist.

Do you agree?

6. THE PUSH FOR A ONE WORLD GOVERNMENT

Seven years ago, I began writing about the UN's Agenda 2030 and its push for a one world socialistic government. In response, I received some of the harshest criticism that has ever come my way. One person has repeatedly called me a liar because of what I wrote regarding these things.

Now, however, this global push has become abundantly clear. The World Economic Forum (WEF) openly calls for global governance and conducts open meetings in Davos, Switzerland where leaders from all over the planet plan for time when all the nations of the world unite under one banner. In the past, they held these meetings behind closed doors. Now, however, they invite the press in to record their planning sessions for the day in which they will rule over all the people of every nation.

The U.S. President openly promotes the agenda of the WEF. His campaign slogan of “Build Back Better” was taken directly from the group the Klaus Schwab and Yuval Harari lead. In the early days of the his administration, he sent John Kerry to the WEF to pledge America’s devotion to them.

All these things align perfectly with biblical prophecy. The books of Daniel and Revelation predict that the things we hear from the WEF will happen in the future, although briefly, during the Tribulation.

This push for a worldwide government by 2030 aligns with God’s Word says will happen in the last days.

7. THE MARK OF THE BEAST

Most people today have heard about the Mark of the Beast and regard the number 666 as evil (perhaps in a superstitious way), but relatively few believe such a thing will ever happen. It’s clear that those outside of Christ reject this as a conspiracy theory or pure nonsense.

What about fellow believers? Many of them also see the mark as something of the past or symbolical of a different reality. A great many pastors regard prophecies regarding the fulfillment of Revelation 13 as conspiracy theories or part of a false doomsday scenario based on an errant interpretation of Revelation.

What about the elite globalists? Although they don’t use Revelation 13:16-18 terminology or believe what it says; *nonetheless, it’s an outcome they have been planning for a very long time and hope to bring to fruition in the near future.*

Several months ago, I wrote *Transhumanism: Marching Toward the Mark*. In it, I describe in detail how the current push for transhumanism is all about setting up the earth’s population to receive the mark of the beast.

Pay close attention to this quote from a speech by Aldous Huxley, a philosopher and author, at the California Medical School in 1961:

“There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution.”

Though spoken over sixty years ago, these words represent the blueprint from which the globalists operate today. What Huxley talked about in 1961 has now become reality. “Pharmaceutical methods” are fast becoming the way by which elite globalists are now seeking to change human DNA and later combine them with machines.

Globalists such as Klaus Schwab talk openly about transhumanism and how the combining of machines with humans will be the final step in the evolution of mankind. Joe Biden recently signed an executive order promoting transgenderism in the U.S.

Those who operate under the banner of “see no evil” in our world miss how the technology for this now exists for the first time since the Lord revealed this to the Apostle John almost two thousand years ago.

Never before in history has Revelation 13:16-18 been so close to fulfillment. Through artificial intelligence, one person is now able to determine on a worldwide basis the parameters for who is able to buy and sell, or not. Before, it would have required a vast multitude of people to pull this off, but no longer. *The words of John in Revelation 13 are ready to leap off the page into reality.*

The current planning of the elite is all about preparing people for the coming day when they will receive an injection of sorts that will enable them to control all who receive it.

Please know that this will not happen until at the midpoint of the Tribulation, long after Jesus has taken us up to glory and the place He’s prepared for us.

CONSPIRACY THEORIES OR SPOILER ALERTS?

What say you? Conspiracy theories or spoiler alerts? Perhaps I made my views a little too obvious.

Despite the openness concerning their agenda, the globalists are the ones with the most to gain from people regarding their plans as conspiracy theories. The more who see their agenda as mere conspiracy theories the better it is for them because it results in little to no resistance to their agenda.

On the other hand, believers that regard the seven items listed above as descriptions of what Scripture says the world would look like just before the start of the Day of the Lord, recognize the nearness of Jesus’ appearing to take us home.

We rightly recognize that Jesus is right at the door, ready to take us home to His Father’s house in heaven.

The Bible tells us that the Rapture will happen quickly (1 Corinthians 15:50-54) and the Lord’s wrath will fall suddenly upon the world (1 Thessalonians 5:1-3).

We do not know how much longer we will wait for Jesus’ appearing, but we know that it will be a day just like any other when rather suddenly we find ourselves in glory with our dear Savior (Colossians 3:4).

Israel Could Face Nightmare Scenario Of Hezbollah Chemical Weapons

On Nov. 20, the Saudi Al-Hadath news website published a report claiming to detail an Iranian plan to supply rockets--with chemical warheads--to Hezbollah in Lebanon.

According to the report, the rockets are stashed at the Masyaf area in northwestern Syria, and are due to be transferred to Al-Qusayr in the western part of the country, and then to the Bint Jbeil area in south Lebanon, via the Beka'a Valley.

The name Masyaf might ring a bell for those following Israel's campaign against Iranian activity in Syria. On Aug. 25, international media reported that a facility at Maysaf belonging to the Scientific Studies and Research Center (SSRC), better known by its French name, CERS, was hit by an airstrike.

However, according to IDF Maj. (res.) Tel Beeri, head of the Alma Center's Research Department, which specializes in the Syrian and Lebanese arenas, while the report's claims with regard to chemical weapons smuggling should be taken with a grain of salt, the scenario of Hezbollah using crude chemical warheads is not imaginary.

"The geographical area described in the [Al Hadath] report ... makes sense. That is the area of the Iranian land corridor used to smuggle weapons to Syria and Lebanon," said Beeri. Nevertheless, he continued, "Al-Hadath is a Saudi media platform whose sources of information are questionable. It is also well known that the Saudi authorities employ Al-Hadath to disseminate material in order to gain influence."

But regardless, he said, Hezbollah could well assemble rockets that employ the readily available chemical chlorine, he said. Hezbollah would not need to smuggle chlorine to Lebanon from Syria, he noted.

"We're not talking about mustard gas or sarin. Chlorine is commonly utilized in civilian industry," said Beeri. "One does not have to be a rocket scientist to place it in shells or rockets."

Throughout the Syrian civil war, Islamic State deployed chlorine gas in Syria. When it comes into contact with the human body, it causes chemical burns, and in some cases, can also cause asphyxiation.

"One can see what chlorine does by examining the industrial accident that occurred at Jordan's Akaba port in June this year. A chlorine tank exploded, and within seconds, the chemical spread, killing 12 people and injuring 250," said Beeri.

"This is a simple and rudimentary tactic, but it has the potential to cause harm," he added.

The Syrian military also placed chlorine in shells and rockets, as well as in barrel bombs dropped from helicopters during its war against rebel forces, in Duma in April 2018, and in Idlib in September 2018, said Beeri.

"Hezbollah does not require assistance from Syria to do this," he added.

"We cannot rule out the prospect that Hezbollah may employ chemical weapons tactically in the next conflict with Israel. The most likely candidate is chlorine. If this happens, it will likely be limited use, whether by shells or rockets, when Hezbollah's back is against the wall," he stated.

The most likely targets would be Israel Defense Forces units maneuvering in Lebanon, according to Beeri, as well as forces stationed on the border. "The excuse would be that it's being used to defend Lebanon," he said. The goal of such a last resort would be to instill fear and create a victory picture for Hezbollah, which is likely aware that such an attack would trigger severe and potentially unprecedented Israeli retaliation.

The Israeli home front would not likely be targeted, Beeri argued.

"Hezbollah is ideologically radical and dedicated to Israel's destruction, but it is not foolish. As a result, any use of such weapons would be limited, against IDF movements," he said.

The IDF, for its part, may need to take into account a scenario in which Hezbollah, in distress, could deploy chemical substances against its forces in a certain manner, and this scenario warrants preparations, he said.

Klaus Schwab Says 'God Is Dead' And The WEF Is 'Acquiring Divine Powers'

BLASPHEMY!: God is dead, according to the World Economic Forum, who have also declared that "Jesus is fake news," and that WEF leaders have "acquired divine powers" to rule over humanity. According to the WEF, a new one world religion has arrived and it unites all of humanity in worshipping at the altar of climate science, techno-communism and eugenics. If you find it hard to believe Klaus Schwab's WEF would go this far, you clearly haven't been paying attention to developments in recent times. Klaus Schwab's right hand man Yuval Noah Harari has announced that the WEF has been so successful in its plans that it is "acquiring divine powers" of "creation and destruction." The blasphemy doesn't stop there. Harari also promises the WEF will turn humans into gods.

The Washington Post is taking a beating after promoting a play about pedophiles and their actions over the weekend with the comment that it is "brilliant." Fox News explained a "drama critic" from the Post called "Downstate," a play about pedophilia, "brilliant." "They are really going to try to normalize this, aren't they? Straight up evil," Fox News contributor Lisa Boothe responded.
